Phrases of the day:

1. _____ tio bo?
2. You simi dai ji?

Not forgetting the fact I never fail to embarrass myself.

Clubbing solo with boyf tonight. Yup...

i think being human is fucking lame. we're never contented.

when i had straight hair, i want to curl it. now tt i have bouncy curls, i want it straight.

i'm pretty amazed at my hair length aft i ironed it today. omg it's like the longest hair i've ever had. i'm so happy. i don't feel like washing my hair right now cause it's straight.

maybe i should move back to my place no matter how far away the office is. because i feel tt i'd only appreciate him so much more when he's away. it's like we're seeing each other everyday since day one and somehow it kinda suck because you don't really treasure every moment together.

i'm gonna bathe and go to bed at 12 fucking am.

back at anchorage now and my aunt is gonna be the one nursing my fever for hopefully the next couple of days.

i miss the feeling of going home and have someone attending to you. but i hate the curfews and all the other strict rules that my aunt love to impose.

i seriously don't know how to put across how i feel at this very moment. i've been blogging only when i'm angry and i'm really sick of it. try as i may, it's hard not to have an avenue to rant to make you feel better esp when you turn to your friends, the only thing that ever comes out of their mouth is just "ask him to fuck off".

i just need time off to get away from all the stress and pressure. even though work sounds really easy, i get so fucking stressed cause my damn pipeline figures are not moving to the closed deals tab. my boyf and i just can't seem to see things eye to eye. and i'm being a bitch right now because i just refuse to reply texts or answer phone calls from the girls since i don't feel like it.

sick of this always feel like crying feeling. haven't felt true happiness for super long.

can't wait for wednesday because my baby girl, Caitleine, will turn 2. well, i guess she's the only happy thing in my life now. and judging from the way things are, i predict it's like for the rest of my l ife?

I remember when you used to tuck me in at night
With the teddy bear you gave to me that I held so tight
I thought you were so strong
You'd make it through whatever

It's so hard to accept the fact you're gone forever

It's funny how I always wish tt I can talk to you whenever bad things happen. You promised to be there and I know you are. But I just can't bring myself to do it because I very well know what will happen after just one talk. So near yet so far away...

I can't wait to hate you, make you pain like i do
Still can't shake you off
I can't wait to break through these emotional changes
Seems like such a lost cause

I can't wait to face you, break you down so low
There's no place left to go
I can't wait to hate you

i should really learn from my boyf. how he firmly stands on his decision and nothing in this god damn world can ever make him change his mind. like if he doesn't wanna do something, he will never ever do it no matter how unhappy people ard him will get.

i'm so tired of always doing things tt i don't want to do. because of the fact tt i hate it when my friend throws some attitude shit on me or gimme some stern fuck face, i do it unwillingly

cb, you're not the boss of me. the more i think abt it, the more angry i get. i mean friends will never boss you ard or make you do things tt you don't want right? i know my tweets and post will cause a lot of unhappiness. i'd rather do all this now than waste my time on some superficial friendship and have friends who are like a total waste of time.

seriously need to do some filterng. i find tt even strangers are nicer these days.

i mean close friends do almost everything together. they shop tgt, watch movies tgt, go on holidays tgt. but wtf are we even doing. only meeting up when alcohol is involved. other than tt, we can just FOAD. i'm so sick of it. sick of only gg out at night and during the day time, it's so fucking hard to get even one of you out.

when my boyf gets unhappy w me partyng so frequently, everyone tells me to tell him to fuck off. but honestly, sometimes, i dread gg clubbing. i go because i don't wanna waste my weekends away. i go because it is the one and only way to get my friends tgt and have fun.

it comes to a point when i find all of this is just superficial. i admit, i have such superficial friends and at times, i'm the most superficial person i've ever known.

all in all, i just want a healthy friendship. i don't want to call peoople tt i only club with, my good friends. to be honest, i don't think tt you are. i don't care if you get mad and throw a bitch fit at me. at this moment, i feel damn happy. like as though i've finally stood up for myself. if you think tt i'm not worth being friends with, then by all means go cause no one is stopping.
